Get yourself into a new class or activity

As summer heat finally begins to wane and balmy days and nights make South Florida bearable again, it's a good time to learn, experience, and practice something new. Whether for edification, enrichment, pure pleasure, or all three, you can sign up for recreational classes, courses, and workshops that hit the "I've always wanted to..." button.

We've rounded up a selective list of activities for grown-ups likely to stimulate interests, skills, and social engagement. (That translates into meeting new people when you've got interests in common, and for singles, remember that networking rules!)

We're focusing on activities primarily north of downtown Miami in areas served by the *BT*. Information is taken from websites and is believed to be accurate as of press time. Always check first.

THE APPEAL OF EYE: Decorating your home is a fun and creative way to express your personality and style. When it comes to home decor, the eye is the first thing that catches our attention. The colors, textures, and shapes we see in our homes can have a powerful impact on our mood and how we feel about our living spaces. From the colors we choose for our walls to the furniture and accessories we select, every detail matters. It's all about creating a space that is not only beautiful but also reflects who you are. So, take the time to curate a home that truly speaks to your soul. After all, your home is your sanctuary, and it deserves the best.

THE GIG: As a music enthusiast, I've always been drawn to the sound of an acoustic guitar. It's that warm, resonant tone that fills a room. Whether you're a beginner or a seasoned player, there's something magical about the way an acoustic guitar sounds. If you're looking to add a new instrument to your collection, an acoustic guitar is a great choice. Not only is it versatile and easy to play, but it's also a beautiful piece of art. So, if you're ready to take your music to the next level, consider investing in a quality acoustic guitar. You'll be happy to have it for years to come.
